Now really—why tolerate a slow, 120-volt, plug-in dryer when Gas can do the job up to 4 times faster—at about 1/4 the cost per load? A Gas dryer is so fast that while a plug-in dryer does one load of wash, a Gas dryer can do four! You stay ahead of your washing machine with laundry that's dried fast, fresh, and fluffy. And thanks to life-time Gas burners, repairs on Gas dryers are very few and far between. Now really—don't you agree that a fast Gas dryer is a very smart buy?
